WFC BIENNIAL CONGRESS
CHIROPRACTIC
FOR A NEW NORMAL

WELCOME & INTRODUCTION

Chiropractic For A New Normal

2021 marks the 30th anniversary of the World Federation of Chiropractic's Biennial Congress. Since our inaugural meeting in Toronto back in 1991, we've come a long way. This year, our 16th Biennial Congress, reflects an unprecedented time in our history. COVID-19 has impacted every aspect of our lives. It has presented challenges for clinicians, educators, students, and scientists within the chiropractic profession. It has also acted as a catalyst for inspiration, innovation, and opportunity.

As we emerge from the pandemic, we find ourselves in a new normal. What seems certain is that the delivery of healthcare has evolved, new methods will become accepted practices, and emerging evidence will drive methods of learning, communication, and care delivery. Patient expectations will also have changed, and expectations of evidence-based, people-centered, interprofessional and collaborative practice will drive change in the environment of this new normal.

Our 2021 Biennial Congress will showcase the leading global advances in chiropractic. With contributors from around the globe, our theme of ***Chiropractic For A New Normal*** will showcase leading contemporary issues, with outstanding keynote speakers, stimulating panel debates, groundbreaking research and inspiring workshops.

Past attendees will know that the WFC Congress has something for everyone. Whether you're a student, early-career clinician, longstanding practitioner, educator or research scientist, our congresses uniquely bring our global community together.

This year's event is 100% virtual and we're partnering with the best in the business. Parker Seminars have developed a worldwide reputation for delivering outstanding online events and we're proud to be working collaboratively to present an unmissable experience.

Richard Brown DC, LL.M, FRCC, FICC
Secretary-General
World Federation of Chiropractic

2021 SEPTEMBER 23-25
WFC BIENNIAL CONGRESS
CHIROPRACTIC
FOR A NEW NORMAL
